Keep filling the next required steps.....

Click on Continue to create your CITI Program Username and Password

Fill your name and email address  
and create a username and password.

Go to next page

Keep Proceeding with various steps identifying your role in research etc. ....

.....

Fill 7 steps of registration process.

Tips: Choose HSR (Human Subject Research) series and click on the relevant research course for your speciality. Eventually all will need to complete a Basic course, COI mini course and GCP course etc according to their speciality and role in research.

For example

- IRB members need to complete IRB member course,
- IRB Chair has to complete IRB Chair Course,
- Research coordinators, student researchers and Investigators have to do Human subject research series course that you may be offered according to your role in research such as Biomedical Data or Specimens only Research or GCP course etc.
- Institutional Official has to complete Institutional/Signatory Official course.
- IRB Coordinators have complete IRB Administration Course.
- All may enroll in any other courses of interest as displayed in displayed courses catalog.

Complete all required modules for that course. You will have to complete another refresher course after 3 years as specified in the completion report. Please email me ([itaneja@etch.com](mailto:itaneja@etch.com)) once you complete the course.

I will automatically get an alert that you complete the course.

I hope this helps. Please email me ([itaneja@etch.com](mailto:itaneja@etch.com)) if you have any questions.
